

JAGANATH M S

Frontend Developer | React.js Developer | Web Developer

jagan.msjc@gmail.com

+91-9385304351

SUMMARY

Frontend Developer with 2.5+ years of experience building scalable, high-performance web applications using React.js, TypeScript, and modern state management solutions (Redux Toolkit, Zustand). Strong expertise in component architecture, reusable UI libraries, REST API integration, JWT authentication, and performance optimization. Proven track record of improving application speed by 20% and increasing development efficiency by 40%. Experienced in Agile environments.

EXPERIENCE

Associate Software Engineer - Workhall

Sept'23 – Present

- Designed and published a reusable React Native Toolkit (NPM package) using TypeScript, improving development efficiency by 40% across multiple applications.
- Developed 4 customer-facing report features serving 1,000+ users, enhancing usability and data accessibility.
- Built dynamic real-time page filtering functionality, improving report usability by 25%.
- Optimized application performance and reduced load time by 20% through code refactoring and performance tuning.

Intern in Appian - WNS Vuram

Oct'22 – May'23

- Gained hands-on experience with Appian in business process management projects, including requirement analysis.
- Built user-friendly interfaces that enhanced user experience by 20% and improved overall performance by 30%.

Intern in Web Development & Designing - The Sparks Foundation

Jan'22 – Feb'22

- Developed responsive web projects using HTML5, CSS3, and JavaScript to enhance user experience and functionality.
- Implemented modern development practices and Git version control, accelerating deployment cycles by 40%.

PROJECTS

calendar-simple – NPM library

Technology: ReactJS, Typescript, Luxon

- Architected and published a production-grade, component-driven React calendar library with reusable UI components, supporting Month, Week, Day, Schedule, and Custom Days views, full TypeScript support, ARIA accessibility compliance, and keyboard navigation.
- Delivered rich event management with custom styling, multi-day spanning, arbitrary metadata, optimized rendering via sorted month-view and enriched-events APIs, and configurable time formatting for enhanced user experience.

Social Media

Technology: ReactJS, Node.js, Mongo DB

- Developed a full-stack social media application implementing secure authentication and authorization using JSON Web Tokens (JWT), with protected routes and token-based access control.
- Built features including post creation/editing, profile management, and account deactivation, delivering a seamless user experience across authenticated user workflows.

Happy Chat App

Technology: Socket.io, ReactJS, Node.js, Mongo DB

- Created a cutting-edge chat application with robust end-to-end encryption for private conversations.
- Implemented Socket.io for real-time messaging, ensuring seamless and confidential user interactions.

SKILLS

Technologies

- ✓ React.js
- ✓ TypeScript, JavaScript
- ✓ HTML5, CSS3
- ✓ Redux, Zustand, Context API
- ✓ Tailwind, SCSS
- ✓ Vite, Webpack
- ✓ React Native
- ✓ Node.js, Express.js
- ✓ REST API Integration
- ✓ Next.js
- ✓ GitHub Actions (CI/CD)
- ✓ MongoDB, SQL

Professional

- ✓ Team Collaboration
- ✓ Work Independence
- ✓ Critical Thinking
- ✓ Rapid Implementation
- ✓ Performance Optimization

TOOLS

- ✓ Git
- ✓ Jira
- ✓ Visual Studio Code
- ✓ Trae, Antigravity

CERTIFICATES & COURSES

- Modern HTML & CSS From The Beginning (Including Sass) - Udemy ([Verify](#))
- React - The Complete Guide 2023 (incl. React Router & Redux) - Udemy ([Verify](#))

EDUCATION

B.E – Electrical and Electronics Engineering

Sri Krishna College of Engineering and Technology (2020 – 2023)

CGPA – 8.74

Diploma – Electrical and Electronics Engineering

Thiagarajar Polytechnic College (2017 – 2020)

Percentage – 90.36%
